Discover a holistic approach to wellness that nurtures your mind, body, and spirit. At AYURAH, our integrative programs blend evidence-based practices with time-less healing traditions, creating experiences that restore balance, enhance vitality, and inspire lasting wellbeing.

INTEGRATIVE HEALING MASSAGE THERAPY

Chi Nei Tsang

Duration: 45 minutes

A centuries-old Chinese healing touch therapy that works through deep abdominal massage. Chi Nei Tsang (CNT) "trains" internal organs to work efficiently, with the belief that unresolved emotional issues are stored in the digestive system. CNT translates to "working the energy of the internal organs" and was used by Taoist monks for spiritual pursuits, detoxification, and body refinement.

Lymphatic Massage & Skin Brushing

Duration: 60 minutes

Dry brushing and lymphatic massage are two powerful techniques that can revitalize your skin and boost your overall health. By gently exfoliating the skin with a coarse, natural-fiber brush and stimulating the circulation of lymph fluid with a gentle massage, these methods help remove toxins and waste from your body. Unlike regular massage, lymphatic massage uses light pressure to target the superficial lymphatic system.

Thai Yoga Massage

Duration: 60 minutes

Thai massage is often called assisted yoga, as it involves positioning the body into various poses. The massage targets energy flow, using hands, thumbs, feet, and elbows to work on energy lines. The recipient is gently stretched and rocked in a rhythmic manner to release tension and improve flexibility.

INTEGRATIVE HEALING TREATMENT

Floataction Healing & Therapy

Duration: 90 – 120 minutes

Floataction Therapy uses a specially designed floatation tank filled with warm, magnesium-rich Epsom salt water, allowing you to float effortlessly in a near-weightless state. The environment is quiet and free from external distractions, encouraging deep relaxation and sensory rest. This therapy helps reduce stress, relieve muscle tension, improve sleep quality, and enhance mental clarity. The weightless experience also supports joint and spine decompression, promotes circulation, and aids recovery from physical exertion. By removing sensory input, floatation can foster a calm, meditative-like state, boost creativity, and provide profound mental and physical rejuvenation in just one session. Following your floatation experience, a soothing full-body massage promotes deep relaxation that is long-lasting, extending the benefits well beyond your time in the water.

Chromotherapy

Duration: 30 minutes

As part of the hydrotherapy experience] uses the visible spectrum of electromagnetic radiation to allow biological and emotional benefits, supporting the pineal gland and a sense of oneness with the universe, and a positive relationship between one's inner being and the environment. This may help reduce stress, anxiety and offer a grounding effect

Hydrotherapy

Duration: 30 minutes

Using a specialized spa-bath: with calming warmth, weightlessness, the benefits of hydrostatic pressure, and the sense of touch and relaxation from the jets and bubbles in pre-programmed sessions*. Designed to help the immune system, reduce stress and revive a tired body.

*Available with color therapy.

Vichy Shower

Duration: 30 minutes

Therapeutic showering, where the water from seven adjustable shower jets caresses your body under an invigorating waterfall. Using temperature and water pressure to induce a range of benefits, you will feel invigorated, your lymph system will revel in a sense of revival, and your skin will feel readily tightened and toned.

INTEGRATIVE PHYSIOTHERAPY

The team of clinical experts from BHealth Physiotherapy use a variety of techniques to treat, rehabilitate, and promote movement, while considering the individual health status of each guest. The aim is to maximize physical potential and enhance movement capabilities.

Clinical consultation

Duration: 30 minutes

An in-depth consultation with a physiotherapist to assess movement capabilities, and physical function. At the end of the consultation the guest will be given a recommended physical therapy, exercise and physical-movement plan.

Mobility Improvement

Duration: 60 minutes

A personalized mobility analysis, followed by countered mobilization, stretching, exercise techniques, and manual therapy to improve general and specific mobility.

Physiotherapy-based stretching

Duration: 60 minutes

Whole-body stretching to increase muscle length, range of motion, and to align collagen fibers in muscle healing. We use superficial and deep muscle stretching that elongates muscles from the origin to the insertion, using a variety of techniques, including the Muscle Energy Technique (MET).

Therapeutic Technology

Duration: 60 minutes

Ultrasound equipment generates high-frequency sound waves that penetrate deep into the soft tissue, creating gentle heat that helps to relax the muscles. TENS (Transcutaneous Electrical Nerve Stimulation) is a method of electrical stimulation that reduces the pain signal being sent to the brain, while also stimulating the production of endorphins, the body's natural painkiller.

Manual Technique

Duration: 60 minutes

Soft tissue mobilization (STM) involved stretching and deep pressure to break up the rigid muscle-fibres and reduce tension. STM is a fantastic manual technique to treat soft tissue injury.

Myofascial Release Therapy

Duration: 60 minutes

Also known as myofascial trigger point therapy) is a type of safe, low-load massage and muscle stretching technique that releases tightness and pain, by working on the fascia and trigger points in the body.

Tension Massage

Duration: 60 minutes

The gentle massage will release muscle tension, elicit greater relaxation and enhance overall comfort.

Physiotherapist-led Flexibility & Mobility Class

Duration: 60 minutes

Muscle and joint flexibility allow your body to move through a wider range of motion, improves functional movement, and decreases the risk of muscle injury. This class will help make your body more flexible, and increase your overall mobility and physical function.
