PICK OF THE SEASON

SUSTAINABLE VINEYARD

Get to know the style

Chardonnay is the third most widely planted grape in the world, and its cultivation is viewed as being the “rite of passage” for any emerging wine growing region.

Chilean Chardonnay thrives in the cooler areas, and tends to have moderate acidity, tropical fruit notes and a striking minerality.

Chilean Chardonnay is a cool climate specialist. The regions of Limari, San Antonio and Casablanca have become well known for their fabulous (and very reasonably priced) Chardonnays.

Given the heavy minerality and noticeable acidity, Chilean Chardonnay should pair nicely with fish dishes, white meats and some scallops or lobster.

PICK OF THE SEASON ORGANIC WINE

Get to know the style

No summer afternoon is complete without a little bit of the pale pink/orange wines from Provence. These light and crisp roses have just the slightest touches of bright berry flavors and can complement a meal perfectly or be delightful on their own.

The dry, refreshing, pink wines of Provence may not be complicated or heady, but they are certainly lovely. These brightly flavored, yet pale colored wines are full of crisp acidity with light touches of tart red berries and citrus fruit.

Current trends are making these wines ridiculously popular, and for good reason. They are the perfect summer wine and can make any meal even better with their liveliness and pretty fruit

PICK OF THE SEASON

ORGANIC WINE

Get to know the style

Primitivo is a huge, ripe Italian grape which is the pride of the Apulia region in the south of Italy. Primitivo is a delightfully brash wine that's very dark, very juicy and very high in alcohol.

Primitivos are very well known for being full-bodied fruit bombs. they have a very high alcohol content on account of the grapes ripening quickly.

Primitivo is a fantastic wine. It loves Beef, Pork, Lamb, Poultry and anything with a lot of flavour and a mild char to it.
